The weekend of March 31st – April 1st saw the celebration of 100 years of history and schooling in the Wardville District, and 16 years since the merger of Turanga-o-moana and Wardville schools when the school was renamed Wairere School. In compiling this book we have endeavoured to present to you the history of our school and district over the past 25 years. This is to be a continuation of our last Jubilee Book which was published in 1992.

We hope you will enjoy our collation and forgive any errors and omissions as we have presented a record and of past and present activities in the school and district.

We would like to thank all those who have recounted reminiscences and written of times gone by over the last 25 years.

We acknowledge the Centennial Committee who have dedicated their time in planning and organising the weekend celebrations.

We would also like to thank others from within the district who have contributed to this book.

The Centennial Committee

Board of Trustee Address

As the Board of Trustees we thought it timely to reflect on some of the achievements and successes that Wairere School and our Wardville community should be proud of. As a school we pride ourselves in knowing that we provide all students the very best opportunities so that when they leave Wairere at the end of year six they will succeed at intermediate and college. We have a clear Vision and Strategic plan which ensures we are providing quality education in a caring environment. We have a dedicated team of teachers, who together have developed a great school culture that is very positive and plays a key part in the teaching and learning environment. Our school values are at the forefront of learning and an important aspect of how the students learn and play together. Our students are encouraged and supported to display these values consistently in everything they do. The values help to develop friendship, trust and confidence between students, so that they feel comfortable taking risks.

We are incredibly proud of the achievements our past and present Wairere school students are achieving on the sports field, in the community, at Matamata College and Intermediate.

All of this would not be possible without the support of the wider community. This includes the slink run, bull calf donations, raffles and auction evenings, often organised by our Friends of Wairere, who do a wonderful job fundraising, sorting grants and donations.
2016 saw Board of Trustees elections. We welcomed two new parent representatives Melonie Curwood and Irena Blackhall. We welcomed back Steve Borkin, Jande Ganas, Tania Bay, Judi Buckley and Natalie Dyer.
We have a wonderful team culture of learning and working together.

There have been three significant changes we have seen since modern schools. The first would be the introduction of technology in the classrooms. All students have access to their own device each day. Technology has been embedded throughout our school curriculum. The second is the change in our classroom environments. This saw the removal of individual desks and introduction of group tables. This change has created a flexible learning environment and opportunities for collaborative learning. The third and most recent change is the establishment of "The Matamata Community of Learners" (COL).

The COL is set in the rural town of Matamata and surrounds of the Matamata - Piako area. The COL consists of 9 primary schools, one intermediate and one College.
There is a long history of collaboration and cooperation between Matamata schools, and a developing professional learning community. The COL is committed to developing the quality of teaching and learning through a collaborative, planned approach which utilise the leadership, pool of expertise and the culture of each school.
It's very rewarding being part of the team running a small rural school.
Wairere school has a strong future for years to come.

Chairperson BOT
Kelly Hayward

Principal's Message

I am privileged to have been Principal here at Wairere for the past 5 years. It is fantastic to know that our school is 100 years old and still going strong. The school may have a different name, but it is still the same place where memories were made for former pupils, and it continues to do that for those currently enrolled.

In some ways over the years not much has changed, student learning is still the most important focus, which includes both high learning expectations, and high standards. That will never change. The shift however, is to personalise learning and move away from the "one-size-fits-all" model, and to use ICTs to support teaching and learning.

25 years ago, Murray Davidson who was Principal then wrote of how the school was well positioned to move successfully into the 21st century – how true this has proved to be. Education today does however present a very different challenge to schools. Schooling now is all about developing life-long learning skills for both students and teachers, with opportunities to collaborate with others, engage beyond the classroom and to access the experts.

Our small school size is our strength, as it allows us to foster a family friendly atmosphere where teachers get to know all the students, and it provides a great platform to develop leaders. The students are placed in school teams across the year groups for various events, this includes maintaining the school grounds and taking pride in our school environment. Our school size means students swim daily during summer, in a large pool with a diving end that is the envy of many other schools, and to think it was constructed in the 1920s by some of our local farmers. We provide opportunities for our students to mix with the other small schools through sporting events and camp, this way transition to the Intermediate is not so daunting. Over the years many of our students have gone on to be College Duxes, Head or Deputy Head boy or girl. There are also sporting achievements we need to acknowledge and be proud of.

Our aim is to develop strong partnerships beyond the school to support student opportunities, and to remove barriers to learning. Students have the right to the best education and support available, our task as teachers is to develop 21st Century skills and to blend it with the needs of our students. We are well supported by our Board of Trustees and have an active FOW who are constantly finding ways to fundraise. Parent involvement is always welcome and we offer many opportunities for families to come and engage with their child's learning.

Wairere has been a 'proactive' school providing an electronic device for every student and we have great systems in place. Technology is integrated into the curriculum and our students are becoming increasingly technologically capable. Today's schools require good infrastructure, teachers who are computer literate, very committed to working collaboratively and able to deliver quality education for students. For us at Wairere School the future is still looking bright and we all know that education is a lifetime journey.

Principal:
Judi Buckley

How Wardville Got Its Name

The Aratiatia block was named Wardville to mark the visit paid to the district by a former New Zealand Prime Minister. In 1905 Sir Joseph Ward came to officially open a newly-built flax mill belonging to the Sutty brothers. A dinner had been arranged in his honour at Sutty's flax mill on the property later owned by Mr Dines Barker. Unfortunately for Sir Joseph, his vehicle got bogged in the mud on the new road and he was very late for his dinner. The sorry event prompted him to arrange a government grant to enable the road to be metalled. In honour of Sir Joseph's visit the district was named Wardville and the road which caused his delay that night is now Wardville Road. Waghorn Road was named after Mr David Waghorn who owned a large property at the northern end of the road. In days gone by it was just referred to by the locals as 'the road'. Alexandra Road was named after Queen Alexandra. Costall Road was formed through Mr Chris Costall's property after World War Two, and was often called Bluegum Avenue.

"Although firmly regarded as the hub of the universe by all district residents, Wardville is really quite a small district. It possesses, however, a truly remarkable community spirit which many a larger district would be delighted to have." McGuire, V. (1967) Wardville School and District Golden Jubilee. *Editorial.*

How Wairere got its name.

It was suggested by the Boards of Trustees and teachers that the school have a new name as a way of uniting the merging schools, Wardville and Turanga-o-moana. People were asked to submit names. Several were suggested, but Wairere was the one that was most popular.

Reasons for choosing the name of Wairere…

- The name of Wairere Survey District is the first European land title of the surveyed district covering a wide area in our locality that still exists today.
- Wairere Waterfall in the Kaimai Range overlooks the area.
- The Wairere Track is steeped in early history of our Maori people.
- The name Wairere means flying water.

Head Teachers / Principals

Miss Norma E Lawry	first teacher when the school opened in 1917		
Mr C G Gauntlett	1919-41 then 1944-46		
Mr L A Boswell	relieved as headmaster for 3 years while Mr Gauntlett had leave of absence to act as officer in charge of Everyman's Camp at Waiouru.		
Mr T K Stewart	1947 - 1953	Mr M T Davidson	1987 - 1992
Mr F Cullen	1953 - 1963	Mr I Rive	1993 - 1997
Mr G O'Neill	1963 - 1969	Mrs L O'Flaherty	1997 - 2001
Mr E Orsulich	1969 - 1976	Mrs H Brown	2001 - 2011
Mr F Cullen	1977 - 1980	Mrs J Buckley	2012 to present day
Mr Ra Roa	1981 – 1987		

2017 Wairere School Staff

Nadene Martin – Teacher Aide

History Notes of Wardville School

The last 25 years have seen huge changes in the way we live, learn and work because of massive technological change in every aspect of our lives.

Since the 75th Jubilee in 1992, changes gradually began in the farming industry in our community. Many farms became larger as farmers bought the neighbouring farm to have a more economical unit. This had a flow on effect in our school as the same labour unit was able to manage the new larger farm. With this began the loss of families to our school and the gradual decline of our school roll in the late 1900s. The staffing dropped from 4 teachers to 3, and then to 2 teachers in 1998. However, the support for the school remained strong in the community.

Pre-Merger

1993

Ian Rive appointed as Principal of Wairere School. During the year a Grandparents Day was held and 50 Grandparents attended.

Back: Andrew Martin, Adam Van Berlo, Rachel Orr, Angela Coleman, Christina Kneebone. Front: Pip Petch, Kerrie McVeigh, Cayla Saes, Hayley McNeill

1994

Julie Wright was farewelled after great service to the school as office person.

1995

The school year began with 62 children. Julie Hemmingson appointed to the office. Highlights appear to be the Maungatepopo Camp for the years 5 & 6, and the annual Fancy Dress Ball where there was almost 100% attendance of students. There was also a Grandparents Day with a grand attendance of 70 grandparents. Great community support shown to the school!!!!

A very tragic event on 19th May, was the fatal road accident of Sheena McVeigh, a recent ex-pupil of Wardville School.

Room 4 (a prefabricated building) to be re-moved in January 1996.

It was noted that the new Government Policy of 1:28 ratio of teacher per children penalizes rural schools. Eileen O'Hanlon tendered her resignation.

1996

Grading roll 52 in March, 54 in July and 3 rooms. Performance Management the next big requirement of all teachers. Teaching staff to be 2 in 1997. Pam Burne is farewelled.

1997

The opening roll was 53. In 1 June change-over of dairy farming sharemilkers, 8 children leave, 1 child enrolled. Ian Rive leaves at the end of Term 3.

On 24 November Lynn O'Flaherty appointed Principal for Term 1 1998.

1998

The opening roll was 40 children and on June 1 change-over 9 children were enrolled.

1999

It was about this time that it was first discussed we amalgamate or merge with another school.

Wardville School before the merger

The Merger

Wardville School and Turanga-o-moana School, under the new name of Wairere School, began the school year in 2001 on the site of the former Wardville School. The two rural primary schools had been facing declining rolls and became the first schools in the country to choose to merge.

Wardville, a decile 10 school had 40 students and Turanga-o-moana, a decile 9, had 39. Each school had two teachers. The schools, 9km apart, had begun discussing the idea of a merger during the year 2000. During these discussions it was decided an independent body should be chosen to select which school would become the site for the new school. The Wardville site was chosen with its safe and sizeable property allowing room for expansion of building and playground areas.

The new school began in the unusual position of having two principals and two boards of trustees, until the official merger was completed at the end of Term 3, 2001. The new Wairere School opened with a roll of 90 students and the staff, boards and parents were extremely confident about the future. The children were thrilled to have more classmates and looked forward to making new friendships.

Kate Came, Lynn O'Flaherty, Delwyn O'Reilly (obscured) and Heather Brown

Joint principals, Lynn O'Flaherty (Wardville) and Heather Brown (Tauranga-o-moana) along with Boards of Trustees Chairpersons Kate Came and Delwyn O'Reilly cut the red ribbon to mark the opening. Minister of Education John Tamahere was a guest at the opening. Two former students, Kerry Martin (Wardville) and Roger Wills (Turanga-o-moana) unveiled the new Wairere School sign. The carving on the sign depicts the story of Tarore, a maori maiden who was murdered near the Wairere Falls.

During 2000 the classrooms and playground starting arriving from Turanga-o-moana (TOM). The first to arrive was the prefab from TOM. Wardville's prefab was turned around so that when the prefab from TOM arrived, it was placed so that both end outside doors opened into a cloakbay servicing the two rooms.

Wardville's adventure playground was extended and the climbing apparatus and frames from TOM complemented the existing one there, to create a magnificent play area for the children.

The Turanga-o-moana main classroom block was the last building to arrive.

This happened later in 2001 after the school was operating. What excitement as all the children lined the road to welcome this massive sight of the TOM Block, as we now know it, coming down the road on the back of a huge truck. We all cheered as it went triumphantly past. It had made it!!

The TOM Block added greater room space to the school, with the smaller classroom becoming the library and the larger one used as an assembly room. The small rooms gave the Deputy Principal an office and another the Reading Recovery room.
On moving day there were trucks, trailers and even horse floats to transport years

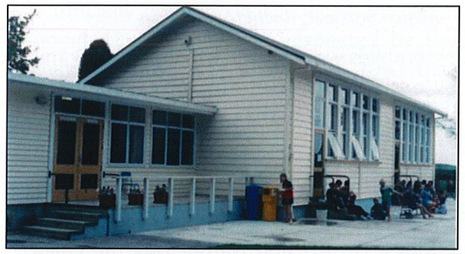
and years of resources to their new school site. There were books, equipment and resources to sort through from two schools. Double of everything!!! Re-organising began. Principals, teachers and parent helpers spent hours and hours of extra out of school time, getting Wairere School ready for operation. The Library was a huge undertaking as books needed to be sorted through and then entered into an updated system.

The merger saw the beginning of many changes on the school site. A new entrance was created on the left side of the school, complete with bus turn-around and car parking area. This made for safe dropping-off and collecting of children. Pavers, concrete areas and outside seats were added as the school was developed. A covered walkway and shaded area meant classrooms were now linked and undercover in wet weather.

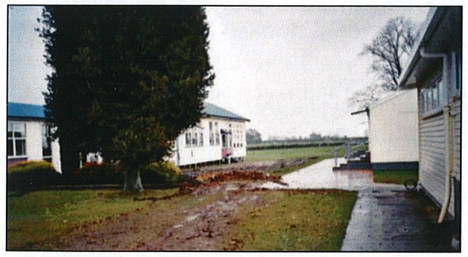
The TOM Block in its new place

Constructing the Bus Turnaround

TOM Block finally back in one piece



The Wardville Block



Buildings in place before walkway

Connecting the schools with a covered walkway

Wairere- Notes of The Recent Years

POST MERGER

The school settled into its new identity with 4 teachers and support staff, relishing in the extra space provided by the addition of the Turanga-o-moana Block. Some things remained the same as we still needed to fundraise. The community continued to support the school through donating and collecting slinks for us. Calf Club became Agricultural Day (Ag Day) and was well supported by grandparents and the community, although there was a declining number of children with pets.

Megan Mulder, Kate Mulder, Isabella Bay, Samuel Bay, Eva Bay, Cory Bond, Nathan Bond, Jessica Bartleet, Rachel Scott.

Assemblies were a weekly highlight, organised by each class in turn, as they demonstrated something special they had been learning.

Learning Celebration Days were introduced to showcase children's learning too. Reward Days were at the end of the term and often were outings. On Art and Nature Day the children made creations out of fruit and vegetables, vaseline saucers were decorated and miniature gardens were made. Art work was displayed from every class.

Tayla-Jay Dearlove

2011

Ten year anniversary of the amalgamation of Wardville and Turanga-o-moana Schools. A new Wairere School sign was unveiled by Mrs Brown, the Principal. The school of 48 children,

held an assembly to reflect on the past 10 years, and sang Happy Birthday!

Principal Heather Brown resigned, to take up a position with the Education Review Office.

2012

Mrs Judi Buckley began as the new principal, focusing on eLearning, teamwork, and school values.

There was a school trip to Auckland in May for the senior room with an overnight stay at the zoo. The Friends of Wairere held an Auction Evening in November and raised $11,000.

In December Alison Mitchell retired after 23 years teaching at Wardville / Wairere School and a farewell was held.

2013

The school entrance was changed by taking out a high wooden fence to link to the covered walkway and make easy accessibility for pick-ups and drop-offs to school.

Milk for Schools is provided for children at Wairere School. Fonterra offer free milk to all student in years 1 to 6. Milk monitors have been trained and a recycling process is in place.

In August 2013 there was great excitement knowing that Wairere School had 15 finalists in the Matamata District Digi Awards Competition. The competition has been instigated by this school under the expertise of the Principal, Judi Buckley. The aim is to provide an opportunity for students to be inspired, to innovate and to create in a digital format.

2014

The new year began at Wairere with two new families being welcomed into the school.

Each year a National Young Leaders Day is held in Rotorua and Year 6 students get to go and listen to several speakers who share positive and inspirational messages. Dream Big, Achieve More!

In July, the Junior and Senior Primary Hockey Teams won the local competitions for the year. Special thanks went to Kelly Hayward who coached both teams.

Also in July a special presentation was made to Grace Hayward at the school assembly when she received the Sir Peter Blake Young Leader Award recognizing young people who have shown promising leadership in their schools. To be nominated a student must have shown promising leadership ability and have made a contribution to their school.

The school now has a digital device for every student. This year there were 6 winners in the various categories of the Digi Awards.

Not only do the school Dads farm the land, they bake cakes too. The 2014 trophy was awarded to Hemi Howard following fierce competition.

The Friends of Wairere ran another Auction evening on November 7 with $8500 raised.

At the end of the year the Education Review Office (ERO) visited with a very positive review of teaching and learning in the school.

2015

The Staffroom and Reading Recovery room were updated over the Christmas period.

To mark 100 years of ANZAC and to honour the New Zealanders who fell during World War 1 a field of remembrance was set up by the students of Wairere School. 30 white crosses were placed near the school flagpole and bearing the names of some of the men and women from our region who served and made the ultimate sacrifice.

In June we welcomed 11 new students.

The Senior Hockey Team won the Primary School competition again this year.

Wairere School had 8 winners in the various categories of the Digi Awards.

The school pool was upgraded through Water Safety New Zealand funding with new pool fencing installed to ensure the school is up to code with pool regulations. Thanks to funding by Friends of Wairere the pool also got a much needed paint.

2016

In February there was another school upgrade with the Library and Senior toilets being upgraded. From the library, bi-fold doors now open onto a deck area where a shade sail has been installed.

Although the school library is now in one of the school classrooms of the former Turanga-o-moana block, the first school library on this site was built in 1972. The plans were drawn up at a cost of $1732.98, with both the paint and carpet donated by the Ingram and Leveridge families. $225 was spent on new books and it was officially opened on 13 December 1972. Although the building was inspected by the Education Board, it was found in 1983 that there was no record of it being built. At the time the school asked the Education Board if more furniture could be supplied for the library, with the reply being, "What library?"

A Quiz and Auction night, organized for 11 November, was a great success with all 15 tables sold. $5422 was raised. A great community event.

Most of the children come to school in the school van (a 12 seater) with several trips to and from school, morning and night. The children are collected from and delivered to their home gates.

2017

The Wardville / Wairere School and District celebrate 100 years.

Reflecting Back – Mrs Heather Brown

Teaching in a rural school is different from teaching in a large school for many reasons. Sheer numbers is the obvious difference – children, staff, parents. And that impacts on funding. Thank heavens for the mammoth efforts of parents at Wairere in raising significant amounts. The participation of parents in the slink run at their busiest time of the year had me in awe of their commitment to the school. Teachers in rural schools can be isolated and far from professional development and support. Wairere School was a good size to enable us to work together to improve teaching and learning. We were able to attend courses together and then support each other through the challenges of new approaches and strategies. Innovative practices in reporting to parents, classroom environments, developing thinking skills and dispositions for learning (Habits of Mind) were exciting and ahead of many schools. I really appreciated teachers' commitment to change in order to enhance children's learning.

I have positive memories about the trips and Reward Days we were able to have. Such fun, both at school and in the wider community. The children at Wairere School generally had great enthusiasm for learning, were resilient, creative and caring of their peers. Because of the school size, many children were able to develop leadership skills that may not have been possible at a larger school. Even the new entrants were enthusiastic to lead assembly! How well the older children looked after the younger ones.

Boards of Trustees are very hands-on in rural schools. A large majority of parents get to have a turn on the board. Trustees have the tools and resources to attend to many of the property developments and problems, being quite creative in their approaches at times. It takes a while to understand all the education jargon, regulations, processes and paperwork, but their practicality is so useful. Often their spouse is on the Friends of Wairere so lots gets organised without the need for yet another meeting. Thanks to all those who had early meetings when the cows were dry so I didn't have to be too late at school.

Rural schools are special and give children sound foundations for further education.

23 Years at School!

When somebody makes a contribution of service to the extent that Alison Mitchell has made to this school and community, it is important to acknowledge this. Alison was for 23 years the much loved new entrant teacher at Wardville, then Wairere School. She nurtured her young pupils, and sent a generation of youngsters through the education system, well grounded in their skills, and with a lifelong love of learning. She was always open to new ideas and computer technology, embracing the changes. In 1989, Alison returned to teaching and became the junior class teacher at Wardville School. Then in 1998 while continuing with full time teaching, Alison returned to university to gain her teaching degree. She was capped in the year 2000. Having gained excellence in her studies, she was invited to join the Golden Key Honour Society. Then in 2007 the Wardville School community nominated her for a National Award for Teaching Excellence. To this day Alison is still very involved with the school and Friends of Wairere.

Changes in Farming

Once the water was drained from the land in Wardville it created some of the best soil in New Zealand. Predominantly the Waihou sandy loam soil type, a perfect mix of ash, sand and silt. In 1992 Dairy farming accounted for almost all of Wardville's farm land. But during the 1990's and 2000's a steady change towards higher value farming systems has occurred. And this has seen a rise in the value of the land up to 6 times higher than the 1992 values (from $6000/acre to $36,000/acre or more).

Dairy Farming

Through the 90's, a generation of Wardville families were nearing the end of their dairy farming careers in Wardville. The Wehrle's, Schwitzer's, Polglase's and Holmes' and more all moved on or retired. As these families ended their successful careers, they often sold to only a small number of buyers. The Atkinson's, Lansdaal's, Borkin's, Ashley's and Van Hout's now own nearly half the dairy land in Wardville, with about 20 other smaller farmers owning the other half.

The high land price and growing farm sizes has changed the Wardville dairy farming community, where it used to be many young farmers and families owning their first farm or 50/50 sharemilking, it has now become employees working for family owned businesses, either part of team on a larger farm, or managing and running a smaller farm. And during the 2010's often these employees have emigrated from the Philippines, like the Gandeza and the Avergonzado families.

The number of people working on the farms is actually pretty similar to 25 years ago, but the roles, titles and incomes are different. The massive increase in land value has led to a larger percentage of the farm income to be dedicated to debt servicing and it is now not uncommon for half of the farm income to be required to pay the mortgage. Another change that was perhaps harder to see, was the freeing up of the hard working farmers wife, who often had to handle the farm administration and phones from the house. The introduction of the mobile phone allowed the farmer to be outside working but still conduct the farm business over the phone. This has seen lots of farming families move to 2 incomes because they were able to and perhaps because they needed to.

More changes lie ahead, there are now different expectations on farms. With the reduced likelihood of farm ownership, People now want a better lifestyle, with more time off, no longer does the dairy farmer do every milking all year or have a weekend off per month, but rather looks to have a lifestyle similar to that of those in town. And we all have to face the changes that increased compliance and bureaucracy on farms will bring; OSH, regional councils and FSA and the large changes likely to be brought about through the healthy rivers legislation.

In 1992, there were 2 dairy companies collecting milk in Wardville, Waikato Valley and NZDG. Now in 2017 we have 2 companies, Fonterra and Open Country. There have been amalgamations and deregulation along the way but the picture is similar.

The way the dairy farms are farmed is no longer the same. In the early 90's almost every farm had a simple cows and grass farm. Over the last 25 years there has been a proliferation of ideas and techniques to make milk. There has been increased fertiliser use, increased urea use, the introduction of maize silage, feeding of palm kernel expeller, feeding of meal. Which represents the best and most profitable system is a discussion best left for the Wardville tennis club evenings.

Milk is still harvested as it was in 1990 in manual operated milking sheds and although

there have been some huge advances in dairy farming technology and milking sheds, Wardville dairy farmers have mostly chosen to upgrade their existing sheds and improve the various parts (effluent systems, cooling systems, added more milking bails). Perhaps the technology out there doesn't suit the area or its finances.

There has been the construction of some new rotary cowsheds by the Lansdaal's on Waghorn road and the Ashley's on Alexander Road and they are fantastic machines, but they are still the minority of milking sheds in Wardville.

Arable Cropping

When John Dunn sold his manicured, 'white painted gates' farm on Alexandra Road to be ploughed into potatoes, there were many eyebrows raised on how such a great dairy farm could be 'lost'. Since that day, many more Wardville dairy farms have been 'lost' to the South Auckland imports. Almost a ⅓ of Wardville's flat paddocks have now been ploughed for vegetables or maize. Some leased and some sold; Youngs and Bethells, to name a couple.

With the increasing urban pressure on any form of farming and urban scrawl reducing the amount of land left to grow commercial vegetables in South Auckland and Pukekohe, Matamata and Wardville have seen a new wave of farmers move south. It is testament to the quality of the soils below us.

Balle Brothers, Wilcox's, Chapmans are some of the new arable farmers in the area. But these farms are different to the dairy farming predecessors. The farm owners don't live here on the farms. The well tendered crops are managed each day by crews coming in from central bases. They own/farm multiple blocks, rotating the crops from potatoes, onions, maize and back to pasture.

Balle Brothers must view the land with a lot of confidence as they have built a large potato washing and storage facility on the old Cawker asparagus farm below state highway 27. And with rumoured plans to build a potato chip factory there as well.

These family businesses have grown large on the back of sound arable farming techniques and by diversification of crops and regions reducing the risks to crop and market failures. The future though looks challenging for any vegetable grower, with impending water quality rules likely to severely limit the options and therefore profitability of these operations.

Dairy Goat

Another farming type that has emerged in Wardville is dairy goat farming. Rather than send the goats out grazing, the grass is harvested by tractors, either daily or ensiled and then fed to the goats who are housed in large sheds. This is to beat the inevitable worm burden that goats end up with, (which severely limits milk production). The dairy goat industry looks exciting and positive, with 2 farms converted in Wardville, Montagues began the change and have been followed by Hick's farm on Wardville road.

The harvesting and feeding system requires more hours of work than a standard dairy farm, so more people are employed on each farm.

Lifestyle and Other Farming

As many of the smaller farms have been amalgamated into larger farms, often a house and a few acres has been subdivided off. This has led to a significant number of small lifestyle farms. These farms are not usually farmed for profit, but as the name suggests, they offer the chance to live the rural, even Wardville lifestyle without being a full blown farmer.

An interesting observation is that nearly half the houses in Wardville today are not actually being used by someone directly involved on the commercial farm where the house is situated. This is certainly a big change from 1992.

There are some broiler chicken sheds on Waghorn road and a number of smaller ex dairy farms that now grow maize.

So the last 25 years has seen lots of change in the Wardville farming scene. From a dairy farming district made up of lots of small dairy farms with many farming families to a multi land use district involving large scale dairy farming, small family owner operated farms, large vegetable growing businesses, lifestyle farmers, chicken growers and more.

Our Filipino Community

The district has a fantastic Filipino Community who really support our school. On Ag Day the Filipino families donate a pig cooked on a spit in special Filipino tradition (Lechon). This has been a fantastic way to fundraise for Totara's Camps. The families are usually first to arrive at our working bees and often bring extra support for school events and fundraisers Once following an earthquake and typhoon in the Philippines, the school held a fundraising sausage sizzle to raise funds to support the Filipino extended families back home.

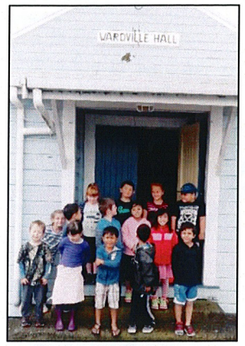
Wardville Hall



Top; *Jorja Endicott, Caiden Gillett, Vicina Muri, Carlos Day,* ***Middle;*** *E J McNaughton, Toby Williams, Hunter Craw, Isla Baldanado, Kellah Baldanado,* ***Front;*** *Sam Borkin, Jade Di Leoni, Zaijin Poliquit, Nyzed Avergonzado, Jordan Edge-Tuhakaraina*

The Wardville School and District celebrated its last milestone in 1992, where the current and past community came together to commemorate the 75th Jubilee. In preparation for the Jubilee the current Committee organised roof repairs and a new paint job which gave the hall a well-deserved new lease of life. This allowed the Committee to have a few quiet years in regards to upgrades.

With the older generations retiring and new faces on the Committee it was time to look at upgrading the kitchen. With quotes received, this was going to be expensive job. Some exterior boards also needed replacing and funds were used for this. The hall continued to age and we knew that a major upgrade was needed.

In 2010, we formed the Wardville Community Hall Refurbish and Upgrade Committee. One of our committee members received information that we could apply to First Sovereign Trust. For this we had to supply information on aspects of the costs for each item. We also included the minutes from our meetings. We met with the Trust to ensure that all of the paper work was in order and then applied for the money. To our delight we were successful!

The upgrade included a new kitchen, new roof, all windows replaced with aluminum, outside cladding - with defects replaced, sand floors and polish, upgrade toilets as well as paint the inside and outside of the hall. Due to the extensive amount of work that was taking place we needed another $15,000 to ensure that the hall was completed to a high standard and the Trust kindly obliged. This bought us to a total of $115,000. We believe this to be one of the most significant events to have taken place in the last 100 years.

Minutes of the Wardville Community Hall Refurbish and Upgrade Committee

Date 24.03.2010

The committee of Mr J Martin, Mr C McGrath, Mrs C Lansdaal & Mr S Tappin was created to investigate the availability of applying for funding for the Wardville hall upgrade.

Chairman: J. Martin
Secretary: C. Lansdaal
Treasurer: C. McGrath

Resolution:

Moved S. Tappin
Seconded C. Lansdaal

It was unanimously decided to apply to First Sovereign Trust for a grant of approximately $100,000 to upgrade the Wardville hall.

This figure is to be confirmed once quotes are received and have been compared.

J. Martin agreed to approach local draughtsman Mr Bluey Howell to draw up plans and specifications for the project. The understanding being that as this is a community project payment would be made for this service pending receipt of funding.

Today the tennis club is still going strong and keeps the surrounds tidy as well as uses the kitchen on a regular basis. The Social Organisation holds welcome ins, farewells and

other fund raising activities. The school also uses the hall for their own functions and it is rented out often to the public. It is one of the most used halls in Matamata, Piako District.

John Martin

Wardville Social Organisation

Over the last twenty five years the social organisation has continued to organise the district's farewells and welcome in's and other social events so that locals can get to know their neighbours and residents from around the district. It's also a way of older and younger residents being able to get together socially.

In 1993, the social organisation took over the Bowling Club's annual public night (traditionally run by the school) and combined it with the district farewell. It was decided to have drinks available, also raffles and bring a plate super. This night has continued to be a very popular every year. The hall was filled with people ready for a night of bowls. A great night for a good laugh and a chat with friends and neighbours.

New Year's Eve parties at the hall continued until the early 2000's but haven't happened in the later years as farmers today take holidays in the summer with their families. These parties have been replaced with many successful events, held at better times of the year.

Some of these events held over the years include a "Wardville Country Districts Ballot Centennial Dance" in 2004. With a live band and formal dress, a very successful night was held reminiscent of the balls held over the years.

A "Party at our place" (Wardville Hall) was held in 2006 with a theme of "Hat it, wig it or mask your eyes". A lot of fun was had by all and for some a big night out with not a lot of sleep before the morning milking.

Also in 2006 we organised a very enjoyable night out in the form of a mystery bus trip to the Waihi Beach RSA for a meal, music and dancing.

In the autumn of 2007 a "Hoe Down at the hall" was held followed in the spring of 2008 by a "Wardville beach party'

Both nights were well attended and enjoyed by all.

Over the last few years, an evening bus trip to Cambridge Trots has been a popular and fun night out. Also as a means of raising funds and getting people together the social organisation has held a quiz night in 2014 and 2015 both nights being very successful.

Our organisation makes every attempt to make new and old residents feel a part of our community with their various occasions.

Present Committee:

Chairperson: K Martin

Committee: J Ashley, A Reichardt, R Martin, C Lansdaal, E Robertson

Our local farming community enjoyed the Quiz and Auction night in the Wardville Hall.

The Tennis Club

The Wardville Tennis Club continues to play a big part in the Wardville District. There is a Women's tennis night, a Men's tennis night and Thursday afternoons is children's tennis. Women's tennis has fluctuating numbers, but there is a core group of ladies that keep this evening going. There are a good number of children enjoying tennis and paid coaches have been brought in to support and grow their enjoyment of tennis. The mums are the main stay at organising the games and supporting their children in the district. Tuesday night is men's tennis night, and although a social occasion for many, when it comes to competing for championships whether it is mixed doubles, married couples or ladies or men's titles they are always contested with great enthusiasm.

There is never a shortage of volunteers, whether it's Chairman, Secretary, Treasurer, mowing in and around the courts, fixing or replacing nets, match committee, BBQ or refreshments positions to be filled. The Club acknowledges various businesses that sponsor throughout the year and also the local farmers who contribute either through fishing or hunting. These nights usually end up with the

men solving many of the world's problems, even if it takes until the wee hours of the morning. The men's tennis season can continue into the month of May so on occasions they do have to clear their windscreens of ice before driving home.

Prize Giving concludes the season, usually in a home, where the Ladies and Men's prizes are handed out with much anticipation.
So long as the Club have a younger group of players involved, I believe that the Wardville Tennis Club will continue for many years to come.

Selwyn Tappin Patron

Wardville Indoor Bowls

In 2010, the Wardville Indoor Bowling Club decided to close down after many, many years of enjoyable and fun nights. In its heyday there were over 70 members of mixed gender, and two nights a week were needed to accommodate them all. After looking through the minute book, it seems that men's night consisted of many savouries and a dozen of whisky. Unfortunately for the club, with increased mobility, and some regular players leaving the district, numbers declined to the point where we could not continue. However, the mats and bowls remain in the hall for district use. It was decided by the Social Committee that the Farewell Evening be a district bowls night. This is enjoyed by all, with much laughter and socializing. May many of these nights continue as they are a unique feature of living in the Wardville District.

Callan McGrath

The school excels in the Matamata Schools' hockey competitions thanks to the coaching of Kelly Hayward.

Family Histories

ARATIATIA

At what point do you begin a history of the families of Wardville. Maori named the area Aratiatia, which has a meaning of pathway. Aratiatia was part of a vast wetland, through which was a pathway leading to the Waihou river and on to the Kaimai ranges. However the settlement we now know occurred when people were given the opportunity to drain and farm the land. The name Wardville came following a visit to the area of the then prime minister, Sir Joseph Ward. Wardville has had a history of interesting and enterprising residents. There are many families of long standing still remaining in the area, and over the years they have contributed enormously to the fabric of the community, making it a great place to live, farm, and raise families. Families brought with them new ideas, innovation, and glimpses of other cultures, adding diversity to the community. Because the school is the hub of Wardville, many of these families have served the school with the knowledge that their own children, and all the children in the community get the very best start in life. The Wardville district, like communities everywhere, has seen many changes in recent times. In years past the people of Wardville were very much constrained to the district for social, school and sporting pursuits. However, with the ability to travel further afield, people were able to pursue interests outside the district, this included choice of schooling. Because very few choose to school elsewhere, is a sign of how much respect Wairere School has in the community.

THE MONTAGUES

Bernard Montague, known as Bernie, has lived in Wardville all his life. He has known only one home in his life, having been born in the front room of his parents' home in 1933. He resides with his wife, Colleen, in this home today. It is set in beautiful grounds with well-groomed lawns and gardens. The garden itself holds many memories of family activites and history, such as tennis parties. The name on the gate, says Springfield, which was the name of the original homestead at Gordon. Barney Montague, Bernard Montagues' Grandfather, owned 1000 acres in the Turanga-o-moana District. When Barney died on 18 August 1912, two of his sons, Dennis and John, farmed the Turanga-o-moana block and Frank, Bernard's father, developed the Gordon block. The boys' sisters, Mary and Hannah said, "The boys have got land. We want a piano." So a piece of land was sold for a piano for the girls.

A Record of War Service Certificate shows Frank Montague, Bernie's father went to war in 1917. He "broke in" the farm after returning in 1919 from the 1st World War (1914-1918).

The land was covered in stunted tea tree with only one tree, a stone pine. This tree fell many years later when Bernie and Colleen were farming the property. The soil was clay with a very small amount of topsoil and that has now been built up over the years. Cows were milked on this block of land.

In 1925 Frank and his wife, Margaret, built their new house. The concrete work was done by themselves with the help of local mates. Bernie and sister, Margaret, known as Peggy, lived there with their parents. Bernie's father, Frank, used to call the house, Te Whare and the name could be seen on a gate post.

Bernie and Colleen Montague at home

Bernie and Colleen were married in 1959 and they had 5 children, Wayne, Karen, Robyn, Grant, and Leanne. Bernie and Colleen have continued to live in this family home built by his father and enjoy the idyllic rural surroundings, nestled under the Kaimai Ranges.

Bernie recalls serving on the Wardville Hall Committee, when Reg Schare and Bob Young were chairman. He remembers how the Grand March was a tradition at the Wardville Ball.

Today, in 2017, there are 4 generations living on the family farm. Bernie and Colleen, their son Wayne and his wife Robyn, their son Brad and his wife Gina, and their daughter Ellie. Also Wayne and Robyn's daughter Carly and husband Michael Mead live on the farm with their son Tristan. As well as that Wayne's sister, Leanne lives there with her son Jack. Colleen says an appropriate name is more like "Montville".

Since Barney Montague, Bernie's Grandad, lived in the area, 6 generations of Montagues have lived or are living in the Wardville area.

Thanks to Bernie and Colleen Montague

THE FRANICH FAMILY

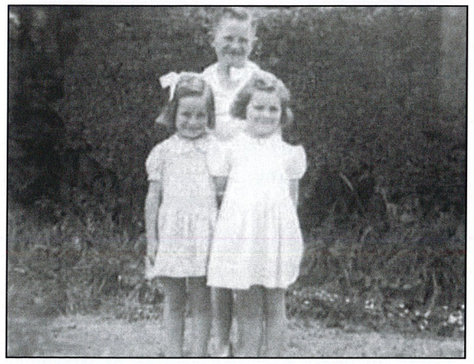
When Sid and Pearl married, they first went to Tokoroa where they milked cows. Then they moved to Wardville to the wooden house by the Hall, that is still there today, on H Morris' property. The farm at that time was owned by Andy Orr. They had 3 children. Ian, their son, started school in 1944. Shirley began school in 1946. Maureen (now Mrs W Henderson) went to Wardville School from 1947 – 1955, then going to Matamata College.

Bill and Vi Carroll lived next door and their daughter, Jackie, was friends with the Franich girls. On the other side was the Daisley family farm and over the road Alex and Doris Chalmers, with daughter Raewyn, being a friend of the Franich girls also. Maureen related how Alex Chalmers would hire movies and the Young, Daisley and Franich families would enjoy these film evenings.

When Pat and Mary Orr married and returned to the family farm, the Franich family shifted down the road, buying a farm owned by J Barker. The Franich children completed their College Education from this farm.

It was on this farm that Ian Franich lived and farmed all his life. Sadly, Ian passed away last year in 2016, after living in Wardville for 77 years. His sister, Shirley Williams passed away in 2007 after several years of poor health following a car accident. His younger sister, Maureen Henderson lives in Matamata with her husband Wally.

Thanks to Maureen Henderson

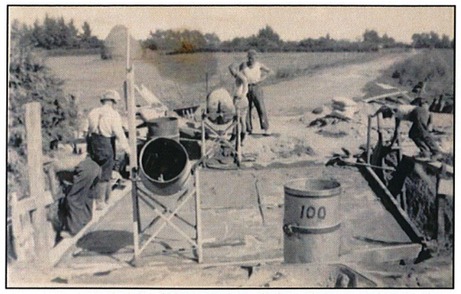


Ian, Shirley and Maureen Franich

THE MARTIN FAMILY

The Martin farm was purchased in 1920 by Edward Martin for the oldest sons, so they had somewhere to go after the first World War. He purchased it from George and Frank Allen. The Allens had purchased it from David Waghorn in 1916.

Edward and his youngest son Val worked the farm and then Stan joined them. The main project was to drain the land. They planted new grasses and began milking cows. There were already sheep being farmed on the higher ground.



The new bridge over the main drain on the Martin Farm 1949.

In 1934 the farm was split down the middle and Stan and Athol farmed half each. On Stan's side his son Wilf worked with his father. Wilf acquired the farm in 1964. Wilf and Gloria farmed until Kerry and Lynne married in 1981. Kerry and Lynne purchased the farm in 1992. Kerry and Lynne continued milking until 2015. They now lease their farm to Matthew Martin.

Athol came from Wanganui where he had been living, to try his hand at farming. He wasn't here very long and he decided to put on a share milker. In 1952 his son Keith moved to the farm with his wife Shirley and first child David. Keith farmed through to 1984 when his son John and wife Robyn bought the farm.

Three generations of the Martin Family - 4th, 5th 6th

John and Robyn had three sons; Sam, Matthew and Andrew. Presently John and Robyn employ Matthew and Olivia on the home block, and Sam and Stefanie on the farm next door that was purchased in 2013. Sam and Stefanie have three girls; Tori, Lisa, and Alice. Tori started school at Wairere in February 2017. Matthew and Olivia have three boys; Max, Jack and Thomas. Six generations of Martins have lived in the Wardville district.

Thanks to John Martin

THE BARTLEET FAMILY

Returning from service in World War 1 Arthur Bartleet fulfilled a promise he had made to his brother; that after the war they would go farming together.

Around 1920 Arthur and his brother Edward arrived in Wardville and purchased 252 acres on Wardville Road. Arthur soon became secretary of the fledgling Wardville school committee, and his four children Graeme, Lynette, Russell Susan all attended. Russell and Grace's children: Jan, Rick and Linda were also educated at the school, and then the children of Rick and Julie; Matthew, Anna and James. Rick and Matthew both served as board chairman (Matthew 6 years). Anna taught at the school.

In 2002 the family farm was sold, and another property in Wardville purchased. Matthew farmed in Wardville for another ten years and his daughters Ashley and Jessica both attended Wairere School as fourth generation pupils. Five generations of Bartleets have lived in the Wardville district.

Thanks to Rick and Julie Bartleet

THE POLGLASE STORY

The year is 2017, making it exactly 100 years ago when Alfred Edward (known as Ted) Polglase, on the 26th day of April 1917 purchased a 126 acre parcel of land, lot no 13, being portion of the block in the Wairere Survey District called Whakatakataka. The farm situated on what was then known as Alexander Road was in an undeveloped stage with only 14 acres in grass. This became a real pioneering life with the land to be cleared of stumps, rushes, ti-tree, and large swampy areas to be

drained before it could be grassed. Wives worked as hard as the men helping with a lot of work, including milking the cows by hand.

Many chains of drains were dug and plantations of gum and pine trees planted. One of the first things land owners did was to plant an orchard of many fruits. They soon became quite self-sufficient by rearing pigs and making their own bacon, growing vegetables and fruit, having free range eggs, and of course milk, and making their own butter.

In the early 1920's schooling was taught in the Wardville Hall, as there was no school and this was where Sylvia and Alf began their education, then later at Wardville when a school was built. Lyall was ten years younger than his siblings and was the next to attend Wardville School in 1933, his teacher being Mr Gauntlett. To this day Lyall claims he was the best teacher anyone could have, as he really taught pupils the proper way to read, write and do arithmetic.

Meanwhile as the farm was gradually developed, milking machines were installed. The milk was collected in 20 gallon numbered cans and taken by a two horse drawn wagon to what was known as the dump, situated at the corner of Alexandra and Wardville Roads. The milk cans were later collected by truck and taken to the Waharoa factory. The dump was a great meeting place in the mornings for the neighbours to catch up with the latest news, discuss farming problems and world affairs. Notices were often pinned to the wall advertising any district news and when dances and kitchen evenings were to be held.

The years were passing and the family growing up. It was now 1940 and World War Two was taking place. After a period in the air force, Alf who was married with two children, came back to the farm to take over as a share milker, while his father whose health was not good, retired. The children, Seddon and Elaine went to Wardville School from 1945 - 1953 and were taught by Mr T. K. Stewart.

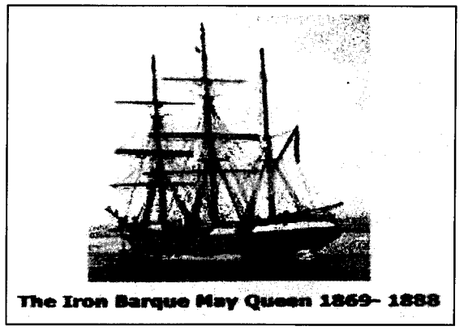
In 1951 Lyall and Pat, who had just married, came back to the farm to become joint share milkers, and lived in a little cottage on the corner of the roadside boundary. After a few years Alf bought his own farm and Lyall continued share milking until 1959 when he bought the family farm. Four children; Mark, Wendy, Megan and Brett were born and all four attended Wardville School from 1957 - 1969 making them the third generation to attend the school. For a period all attended at the same time and later, for a short period even several of their children (grandchildren). Their teachers were Mr F Cullen, Miss B James and Mr G O'Neill.

Being farm children ours all lent a hand when needed. When all the family left home and were now enjoying weekends, the parents were still tied to milking cows, it didn't make sense. We decided to convert the farm into growing maize. This was a different life enabling overseas holidays to be taken and free time between ploughing and preparing the soil for planting, and spraying. At almost eighty years of age Lyall decided he was tired of driving a tractor and was ready to retire. In 2005, with much reluctance the farm was sold ending 88 years of being owned by Polglase's.

Written by Patricia (Pat) Polglase

THE ORR FAMILY STORY

James Orr was born in Londonderry Ireland in 1857 and at the age of 21 James set sail for New Zealand on a migrant ship called 'The Iron Barque May Queen', in 1878 probably as a steerage passenger. He began work in Cambridge as a road and general contractor. In 1882 he married Ellen Griffin from County Kerry Island. They then moved to Waiorongomai at the time of the opening of the Gordon Settlement, where they acquired considerable areas of land. Along with serving on the Matamata Road Board, James also became a Member of the Thames Valley Drainage Board responsible for drainage of the Hungahunga Swamp. Later he occupied a seat on the Piako County Council, serving the Manawaru and Gordon Districts, 1917-1926. James and Ellen raised a family of eight sons and four daughters.



The Iron Barque May Queen 1869- 1888

On the 27th April 1901 James purchased 300 acres of land at a price of 450 pounds or one pound ten shillings per acre, on Wardville Road. James and Ellen's son Andrew born in 1889, served in D Company 45th Reinforcements, 83579 Private discharged 18th November 1918.

Andrew married Monica Whitaker of Wellington and they purchased the property from James and Ellen and built the homestead in 1927. Andrew and Monica had six children and farmed the property until 1950 where the farm was divided in two and their sons Bill and Pat purchased one half each.

Bill married Rosemary Smith of Waharoa in 1952 and had six children. Bill like his forefathers worked the horses on the land until the tractor era was born. Bill served on School and Hall Committees and was a Justice of the Peace.

In 1995 the home farm was sold to the fourth generation son, Andrew.

Andrew was married to Lynn Wynen of Kereone and they moved into the homestead with their three children. They continued to farm dairy cows over the next twenty one years. During this time the fifth generation, Rachel, Nathan and Renae attended Wardville School, 1995-2000. Andrew and Lynn were also involved in the Wardville School Board of Trustees, Hall Committee and Wardville Home and Garden Group.

Written by Andrew Orr

THE HUGHES FAMILY

Mr and Mrs Fred Hughes settled on Waghorn Road in 1919. Two of their sons, Weston and Athol were the next owners of the land.

Athol's children were Arthur, Gordon, Frank and Anne (the late Mrs Graham Motion). Arthur, who began school in 1944, married Lucille, and farmed the land. Their two children both attended Wardville School. Sue started school in 1968 and Brian started in 1970.

Weston Hughes started at Wardville School in 1936. Weston's daughter, Elbea Hughes, began her schooling at Wardville in 1936. Together with husband Norm Wright, they continued farming the land. They had one son, Laurence. He began his schooling at Wardville in 1959.

Laurence and his wife Julie farmed the property and had three children who all attended Wardville School. Aaron began in 1982, Donna in 1984, and Michael in 1986. The Wrights no longer live in Wardville, but they have a legacy of being the fifth generation of the Hughes family that lived in Wardville.

Thanks to Lucille Hughes and information gathered about the Hughes family from the 75th Jubilee Book 1992.

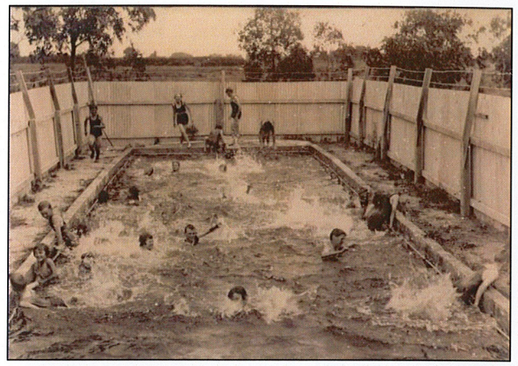
The School Pool

The school pool has a long history and it began as a dammed drain on the school boundary. In 1929 it was decided to make a proper pool, so 22 locals armed with hand tools and a horse scoop excavated the site between milking. There were some issues as a spring was found to be underneath once the concrete was laid. Prior to 1964 the pool was emptied fortnightly and the story goes that the clarity of the pool was checked by dropping a penny in the deep end and looking to see if someone could decipher whether it was showing heads or tails! The pool was officially opened in 1930 and called the 'Wardville Baths'. It was the first country pool in the Auckland Province.

At a time when some schools are struggling to keep their pools open, we feel privileged to be able to repaint and upgrade our pool area. The people in the community kindly supported the painting and fencing of the pool in 2015 by raising a bull calf for school. Water Safety New Zealand put us in contact with Protector Aluminium and provided our new fencing.



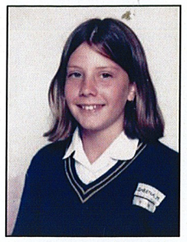
School Gardens

A vegetable garden was planted at Wardville School in 1984. It started from seed boxes to harvest.

Team Totara and Mrs catchpole planned the layout of a new garden this year, 2017, and Mr Catchpole mowed the grass area and laid the weed mat. The garden surrounds were placed in position and lined with polythene. Daltons delivered the soil and the decorative pebbles to go around the pathway. Fencing, an archway and a special seat have finished the project. Now it's just a waiting game.

We Remember...

Sheena McVeigh



We remember with love Sheena McVeigh who passed away on the 19 May 1995 after a tragic road accident while waiting to catch the bus. We remember Sheena, especially, when the flowering cherry tree bursts into blossom by the school gate. A beautiful tree for a beautiful girl.

At the 75th Jubilee Sheena assisted in the planting of a tree to celebrate the occasion.

Rebecca and Petria Martin

A special holiday for four ended in tragedy when the Samoan Tsunami struck on 29 September 2009. Rebecca and Petria Martin, their cousin, Jodi McGlashan, and a friend were on the island of Updu at Lalomanu Beach when the Tsunami struck. The two sisters, who were two of four daughters of Kerry and Lynne Martin, lost their lives when the tsunami hit the shores that morning.

Rebecca Leanne Martin
27 March 1985 – 29 September 2009

Rebecca, aged 24, a teacher at Rototuna Primary School and Petria, aged 22, a team leader at Matamata Sports Centre, were tragically taken. We remember them fondly as residents of our Wardville district and much loved students of Wardville School.

Petria Marie Martin
13 September 1987 – 29 September 2009

Maria Jadde Macnamara

Sadly on 11 January 2010, Maria Macnamara passed away after battling an illness. She was a bright bubbly little girl and this is the poem she wrote about herself.
